# TYPES OF FRUITS

Fruits come in different types based on their structure and characteristics.

## 01 BERRY

Small, soft fruits with thin skin and many seeds inside.

**Examples:** Strawberry, Blueberry, Grapes, Blackberry

## 02 CITRUS FRUIT

Fruits with thick, leathery skin and juicy, acidic flesh.

**Examples:** Orange, Lemon, Lime, Grapefruit

## 03 STONE FRUIT

Fruits with a hard stone (pit) surrounded by fleshy part.

**Examples:** Peach, Plum, Cherry, Apricot

## 04 POME FRUIT

Fruits with a firm, fleshy part surrounding a central core.

**Examples:** Apple, Pear, Quince

## 05 TROPICAL FRUIT

Fruits that grow in tropical regions, often sweet and exotic.

**Examples:** Mango, Pineapple, Papaya, Dragon Fruit

## 06 MELON

Large fruits with a hard rind and watery flesh.

**Examples:** Watermelon, Cantaloupe, Honeydew Melon

## 07 DRUPE

Fruits with a thin skin, fleshy part, and a single hard seed.

**Examples:** Coconut, Olive, Mango

## 08 AGGREGATE FRUIT

Fruits formed from many small fruits (drupelets) on one flower.

**Examples:** Raspberry, Blackberry, Strawberry

## 09 MULTIPLE FRUIT

Fruits formed from many flowers that grow together.

**Examples:** Pineapple, Jackfruit, Mulberry
