

My Favourite Season

Spring is my favourite season because the weather becomes warmer after winter. Many trees grow new leaves, and colourful flowers begin to bloom. Birds become more active, and gardens look beautiful. I enjoy spending time outdoors when the temperature is comfortable. During Spring, my family sometimes visits parks and gardens to see different flowers. I also like watching butterflies move between plants. Some days are rainy, but the fresh air makes outdoor activities enjoyable. Spring reminds me of new growth and the changes that happen in nature.

My Favourite Food

My favourite food is vegetable pizza. I enjoy its soft crust, tomato sauce, melted cheese, and colourful vegetables. My favourite toppings are tomatoes, capsicum, onions, and sweetcorn.

Sometimes, my family makes pizza at home. I help wash the vegetables and arrange the toppings before an adult places the pizza in the oven. The kitchen smells wonderful while it bakes. We usually eat pizza together on weekends. Although I enjoy it, I also eat fruits, vegetables, and other nutritious foods to maintain a balanced diet.

My Favourite Game

Cricket is my favourite outdoor game. I enjoy playing it with my friends at the local playground. Cricket is played between two teams using a bat and a ball. Players score runs by hitting the ball and running between the wickets or hitting boundaries. I usually enjoy batting, but I also practise bowling. Our team follows the rules and takes turns in different positions. Playing cricket helps me stay active and develop teamwork. I like watching international matches with my family and learning new batting techniques from experienced players.

My Favourite Hobby

Drawing is my favourite hobby. I enjoy making pictures of animals, trees, houses, and beautiful landscapes. I keep a sketchbook, coloured pencils, crayons, and an eraser in my study drawer. Whenever I have free time, I choose something interesting to draw. Sometimes, I copy shapes from pictures to practise my skills. My art teacher has shown me how to use a different colours and create shadows. I also make greeting cards for family members on special occasions. Drawing allows me to express my ideas and improve my creativity.

My Daily Routine

I wake up at six o'clock every morning and make my bed. After brushing my teeth and washing my face, I get dressed for school. I eat breakfast before leaving home. My classes begin at eight o'clock, and I return home in the afternoon. After lunch, I rest for a short time and complete my homework. In the evening, I play outside with my friends or ride my bike. Later, I have dinner with my family and prepare for the next day. I usually go to bed at eight o'clock.

My Favourite Bird

The parrot is my favourite bird because of its beautiful feathers and interesting behaviour. Many parrots have green, red, blue, or yellow feathers. They have strong, curved beaks that help them crack seeds and eat different foods. Parrots use their feet to hold objects while eating. Some species can imitate human speech and other sounds. I enjoy watching videos of parrots climbing branches and interacting with one another. These intelligent birds need suitable food, space, and social interaction. I would love to see colourful parrots living freely in a tropical forest.

My Favourite Animal

The elephant is my favourite animal. It is the largest living land animal and has a long trunk, large ears, and strong legs. Elephants use their trunks to smell, drink water, and pick up food. They eat grass, leaves, bark, and fruit. These animals usually live in family groups and communicate through sounds and body movements. I have watched **documentaries** showing **elephants** caring for their young. I find their **on** behaviour interesting because they cooperate and protect one another. I hope **enough** elephants will always have safe places to live in the wild.

My First Day at School

I still remember my first day at school. I woke up early and wore my new uniform. My parents took me to the school gate, where many children were arriving. At first, I felt nervous because everything was unfamiliar. My teacher welcomed me and showed me where to sit. She introduced us to the classroom and helped us learn each other's names. We coloured pictures, sang a song, and listened to a short story. During break time, I made a new friend. By the end of the day, I felt excited to return.

My Pet

I have a pet cat named Milo. He has soft grey fur, green eyes, and a long tail. Milo likes sleeping near the window where sunlight enters our house. He enjoys playing with a small ball and chasing his toys across the floor. Every day, I give him fresh water and suitable cat food. I also brush his fur and help keep his sleeping area clean. Sometimes, Milo sits beside me while I read a book. Taking care of him has taught me that pets need attention, kindness, and regular care.

MY FAVOURITE SUBJECT

Science is my favourite subject because I enjoy discovering how things work. In class, we learn about plants, animals, the human body, weather, and the environment. Our teacher sometimes shows us experiments using everyday materials. I especially enjoy learning how seeds grow into plants. Last month, I planted a bean seed in a small pot and watchi it develop roots and leaves. Science encourages me to observe things carefully and ask questions. I also read illustrated science books at home. I hope to learn more about space and planets in the future.

MY SCHOOL BAG

My school bag is blue with black straps and two large pockets. I carry it to school every morning. The main pocket holds my textbooks, notebooks, and pencil case. A smaller pocket contains my eraser, sharpener, and ruler. There is also a side pocket for my water bottle. I pack my bag according to the school timetable so that I don't carry unnecessary books. After finishing my homework, I place everything inside for the next day. I clean my bag regularly and check that its zips are working properly.

MY FAVOURITE TEACHER

My favourite teacher is Miss Sara. She teaches English at our school. Her lessons are interesting because she uses stories, pictures, and everyday examples. She explains difficult words and gives us time to practise speaking. When someone answers incorrectly, she helps them find the right answer. Miss Sara encourages every student to participate in class activities. She also teaches us to listen carefully and respect different. I enjoy her reading lessons because we discover new characters and places. Her teaching has helped me become more confident in English.

MY CLASSROOM

My classroom is on the first floor of our school building. It has large windows that allow sunlight and fresh air to enter. There are desks, chairs, a whiteboard, and a cupboard for books.

Colourful charts showing numbers, letters, and animals decorate the walls. Our teacher keeps important learning materials near her desk.

Every student has a place to sit and keep school supplies. We read stories, solve questions, and take part in classroom discussions. Before leaving, we arrange our chairs and collect any litter. I enjoy learning in my classroom.

MY SCHOOL

My school is a wonderful place where I learn something new every day. It has bright classrooms, a library, a computer room, and a large playground. Our teachers explain lessons and encourage us to ask questions. We study English, Mathematics, Science, and other other subjects. During break time, I play with my classmates and enjoy my lunch. The school also organises sports competitions, art activities, and educational events. I follow school rules and try to keep my classroom clean. My school helps me gain knowledge, develop good habits, and make new friends.

My Birthday

My birthday is on 15 June. Every year, I look forward to celebrating this special day with my family and friends. Last year, my parents decorated our living room with colourful balloons. My mother prepared my favourite meal, and we bought a chocolate cake. In the evening, my friends came to our house. We played games, sang songs, and took photographs. I blew out the candles and shared the cake with everyone. Before going to bed, I thanked my family for making my birthday memorable. It was a day filled with happy moments.

My Father

My father is an important person in my life. He works in an office and spends time with our family after work. He teaches me to be honest, responsible, and respectful. On weekends, we often visit the market or play badminton together. father also helps me understand difficult school. He enjoys reading newspapers and watching cricket matches. Whenever I make a mistake, he explains how I can do better next time. I admire his patience and dedication. I hope to become a responsible person like him when I grow up.

My Mother

My mother is a caring and hardworking person. She looks after our family and helps us whenever we need her. Every morning, she prepares breakfast and makes sure we are ready for school. She encourages me to study, speak politely, and respect other people. In her free time, enjoys gardening and reading books. Sometimes, we cook together, and she teaches me how to prepare easy meals. When I feel worried, my mother listens carefully and gives me helpful advice. I love spending time with her and learning **new** things from her.

My Best Friend

My best friend's name is Ahmed. We study in the same class and sit together during lessons. He is friendly, helpful, and polite to everyone. We enjoy playing football during our school break. Ahmed is good at Mathematics, and he often helps me solve difficult questions. I share my books and pencils with him whenever he needs them. After school, we sometimes ride our bicycles in the park. We also celebrate each birthdays. I feel happy to have a friend who listens to me and always treats me kindly.

My Family

There are five members in my family: my father, mother, brother, sister, and me. We live together in a comfortable home. My parents work hard and take care of us. My brother helps me with my studies, while my sister is playing with me. We usually eat dinner together and talk our day. On weekends, we sometimes visit our grandparents or go to a nearby park. Everyone in my family has different interests, but we enjoy spending time together. My family teaches me kindness, respect, and responsibility.

About Myself

My name is Ali, and I am nine years old. I study in Class 4 at a school near my home. I live with my parents and two sisters. English and Science are my favourite subjects. I enjoy drawing pictures, reading storybooks, and playing cricket with my friends. Every morning, I get ready for school and eat breakfast with my family. I try to complete my homework on time. At home, I help my parents with small tasks. When I grow up, I want to become a doctor and help sick people.
